Cyclone Launch

Fu Manchu

Left in the dust to sit down How do you i get this heap out of here A sharp cut on a dust row I'm looking down it's now quite clear

Overloadin A full hand Wire-fry a belt blown drive Haymaker a quick turn Holy-roller say goodbye

I knew you'd seen it my way Ain't got anymore today

Forever gone is a skyride Circle the world.. it's a long time Eliminate all highway I got me a course in mind

Burn like a mule throw Watch a nova come alive Sun burnin' a hole down Hand movin' sink with time

I knew you'd seen it my way Ain't got anymore today
