

Didn't Really Try

Fu Manchu

Deep inside your empty mind
Something pushed aside
I tell myself and no one else,
You will not survive

All alone, they say you're wrong
Can't believe your eyes
Times before, never cared
Another sleepless night

Tell us where to go
Tell us at what time
Tell us things we know
Didn't really try
Didn't really try

Listen close, you hear the sound
Of nothing left inside
Way too long, and it's all wrong
Take aces till you are

Innocent, you never win
You're hopin' one more time
Everyone says nothing new
Bring 'em down to size

Tell us where to go
Tell us at what time
Tell us things we know
Didn't really try
Didn't really try

Tell us where to go
Tell us at what time
Tell us things we know
Didn't really try
Didn't really try

Didn't really
Didn't really try
Didn't really
Didn't really try
