

It's All the Same

Fu Manchu

The night brings something
I can't explain
You tell me one thing
It's all the same

Every night, every day (it's all the same)
Things never seem to change (it's all the same)
Every night, every day
It's all the same

Keep us focused
Stand up straight
You try to remember
It's all the same

Every night, every day (it's all the same)
Things never seem to change (it's all the same)
Every night, every day

It's all the same

You try to run, you try to hide
You heard the sound, you saw the sign

Every night, every day (it's all the same)
Things never seem to change (it's all the same)
Every night, every day
It's all the same

You try to run, you try to hide
You heard the sound, you saw the sign
You try to run, you try to hide
You heard the sound, you saw the sign
