

## Nowhere Left to Hide

Fu Manchu

Slowly turn my head  
Over stabilize  
The view has faded  
Non supervised  
Moment of silence  
Not satisfied  
How far this takes me  
Directly in sight

Barely alive  
Slightly opened eyes  
Still nowhere left to hide  
Runnin' inside  
Taken by surprise  
Still nowhere left to hide

Separate slowly  
Erase from mine  
Remembered briefly  
Detached from time  
Never easy  
Keep them terrified  
Return in silence  
Yet they deny

Barely alive  
Slightly opened eyes  
Still nowhere left to hide  
Runnin' inside  
Taken by surprise  
Still nowhere left to hide

Watchers of time  
Watchers of time  
Abandon life  
Abandon life  
Watchers of time  
Watchers of time  
Abandon life  
Abandon life
