

## Open Your Eyes

Fu Manchu

Been runnin' in circles again  
Platforms hide, take no instead  
Left hand points down several lines  
Hide your face, and open your eyes  
Open your eyes!

I feel the weight of whole my back  
Must be somethin' that I don't have  
I feel the weight of whole my back  
Must be somethin' that I don't have

Much shakin', draggin' you down  
Nothin' said, but I heard a sound  
Keep all time, wanna make it right

Hide your face and open your eyes  
Open your eyes!

I feel the weight of whole my back  
Must be somethin' that I don't have  
I feel the weight of whole my back  
Must be somethin' that I don't have

Another day, here it gone  
Tracks are left, we rolled on  
Nothing to do, hands are tied,  
Hide your face, and open your eyes  
Open your eyes!  
Open your eyes!  
Open your eyes!  
Open your eyes!
