

## Slower Than Light

Fu Manchu

They float along behind  
In search of boundless skies  
That void, endless sight  
Down below  
Slower than light

Not a word was said  
You power on ahead  
Quickly bend days and night  
As they continue on  
Slower than light

Times of past slowly unfold  
Uncharted line has now been closed  
Broken time remains upright  
That precious path you take  
Slower than light

Not a word was said  
You power on ahead  
Quickly bend days and night  
As they continue on  
Slower than light

Everything that's been unseen  
Can't be undone  
Till after we return  
Delusion has begun
