

## Another Living Night

Fuck the Facts

Where was the sun?  
Deep down in shit  
It's my belief  
The sun is a lie  
This is over

Where was the sun?  
My god forsakes  
And now it's time  
Take down the blind  
And take over

Forsake my god and die  
My soul cannot go on  
Take me, take me, break me  
Take back and just leave me dead

He dropped the axe  
Fuck that wicked shit  
(Not a life worth living)  
My mind is all  
But dying no reason to live

God doesn't deserve it  
Nothing but a dream  
(Not a life worth living)  
Can't die alone tonight  
Another living night

Forsake my god and die  
My soul cannot go on  
Take me, take me, break me  
Take back and just leave me dead

Where was the sun?  
Deep down in shit  
It's my belief  
The sun is a lie  
This is over

Where was the sun?  
My god forsakes  
And now it's time  
Take down the blind  
And take over  
My god, the fun is over
