

Sun Glass

Fucked Up

Slow motion streaks of colour scream and bloom
(sun glass)
Rejuvenations ocean spume perfume
(sun glass)
Amber statues, precious baby rubies
(sun glass)
Forever sacred diamond eyes look through me
(sun glass)
Rocks in the sky frozen in time
Paper hearts to set alight
Scissors cut the old flame from the fire
A swirling technicolor cluster throbs
(sun glass)
Fleeting passions feed a stoned mob
(sun glass)
Never touch or look directly at her
(sun glass)
Covet the blinding light of cynosure
(sun glass)
Waves of flesh and honey kiss
Roman bodies, artifice
Living slow, the glory of the boy

Sacred young
Feel the sun
Vermillion
Avert your gaze
Be afraid
Can't look away
Torrid hearts, rapturous and free
(sun glass)
Float inside the neon soul and see
(sun glass)
The air is sweet with ignorance and idol
(sun glass)
A stinking ripened youth unbridled
(sun glass)
Glowing trinkets, golden teeth
Pupils wide and vacant smiles
Smoking halo put them back to sleep

We all get replaced, retconned and upstaged, life turns a page. When we turn
away, the kids just aren't the same, new ways to vibrate, I can't hear it,
I can't relate, I can't change again

Sacred young (sacred young)
Feel the sun (feel the sun)
Vermillion (vermillion)
Avert your gaze
Be afraid
Can't look away
Sacred young (sacred young)
Feel the sun (feel the sun)
Vermillion (vermillion)
Avert your gaze
Be afraid
Can't look away
