

Two I's Closed

Fucked Up

You are not alone, far from it
There are people who have found it and come back to tell their
story
They will help you when you drink of that sweet morning
And hold up your head

You don't see with your eyes so close them
There's a place not found on any map
A secret territory
You'll remember when you fall so far from the shadows
And find your heart
So say goodbye to the proud world
You're going home back to the garden
You learned you knew
Come now to bloom in song and ever
Just take my hand, we're coming back
Now look as far as you can see
You'll be the one that changes this
Forever
