

# I'm Gone

Fuel

I lay you down  
Heavy is your crown

When it comes, the light of day  
I'll find another place to play  
Thought we'd live on like a song  
But the words were lying, the music's wrong  
Yeah, so I'm gone

It breaks me down

When it comes, the light of day  
I'll find another place to play  
Thought we'd live on like a song  
But the words were lying, the music's wrong  
Yeah, so I'm gone

When it comes, the light of day  
I'll find another place to play  
Thought we'd live on like a song  
But the words were lying, the music's wrong  
Yeah... so I'm gone
