

# Landslide

Fuel

I got a landslide  
Feeling it all on the inside  
Coming down  
Don't want to hide  
Feeling you taking me over  
And I don't mind  
Don't you let me down again, no, no  
Don't you let me down again  
Won't make it this time  
If it passes me over now

Caught in a landslide, caught in a landslide, caught in a landslide  
I'm feeling it inside, feeling it inside, feeling it inside now  
Did your heart just bury me? Did your heart just bury me?  
Caught in a landslide, caught in a landslide, caught in a landslide now

And I can feel it  
Feel it sweeping me under  
I close my eyes  
And then you take me  
Healing me, drawing me inside, inside, inside, yeah  
And the world just falls away, yeah, yeah  
Let the world just fall away

Caught in a landslide, caught in a landslide, caught in a landslide  
I'm feeling it inside, feeling it inside, feeling it inside now  
Did your heart just bury me? Did your heart just bury me?  
Caught in a landslide, caught in a landslide, caught in a landslide now

Oh, never let it go  
Never take it slow  
Baby, don't you know  
Maybe we could just take it away?

Caught in a landslide, caught in a landslide, caught in a landslide  
I'm feeling it inside, feeling it inside, feeling it inside now  
Did your heart just bury me? Did your heart just bury me?  
Caught in a landslide, caught in a landslide, caught in a landslide
