Goodtime

I know you know
Wearing, lit us
You smile that smile
I walk right to your flaw
Worn nail the show
Do we survive
When we collide
And I breed of desire

Stay we want the pass and chain
Reservations on the payday
'Cause we know we're the only ones
In caress staring at the sun
We know, we know where to hide
So news, take me there
Take me home tonight!
Take me home

Stay we want the pass and chain
Reservations on the payday
'Cause we know we're the only ones
In caress staring at the sun
We know, we know where to hide
So news, take me there
Take me there

'Cause we know we're the only ones (only ones)
In caress staring at the sun (at the sun)
We know, we know where to hide
So news, take me there
Take me home tonight
Take me home
