

## **Self Chosen Captive**

**Fukpig**

Safe from a world of harm  
In your seat so far away  
Can't see further than the end of your nose  
To sit & watch is what you've chose  
Insular species - self-chosen captive  
Within your four walls  
TV set your only shield  
Gives you everything you need  
Never with a thing to say  
No feelings anyway  
Numb to the outside world
