## **Unlearn**

## **Full Blown Chaos**

Too many times I've been struck down Fed lies to pacify Drawn away from the truth We are a dying breed

Everyday we move closer The end drawing near Time will slip away If you drop your guard

Unlearn and be reborn Your thoughts are not your own Unlearn and be reborn Only the wise will rise

Take hold of common sense Sacrifice must be replaced No need for martyrs If we open your eyes

Strength in numbers
Makes for a larger target
Can't isolate ignorance
So I'll stand alone

Unlearn and be reborn

Take hold of common sense Sacrifice must be replaced Can't isolate ignorance So I'll stand alone

Unlearn and be reborn Only the wise will rise Unlearn and be reborn

Humanity has lost all it's instincts Our senses have been abandoned We must regain our lives Unlearn and be reborn

Humanity has lost all it's instincts Our senses have been abandoned We must regain our lives Unlearn and be reborn
