

## Valley of Bones

Full Devil Jacket

In the valley of bones,  
In the valley of bones,  
In the valley of bones,  
In the valley.  
In the valley.  
In the valley of bones,

In the valley of bones,  
In the valley of bones,  
I was bleeding from the start, with a broken heart.  
Always falling away, cause I was falling apart.  
I had nothing to say, not a word to speak.  
Couldn't find my place, or get on my feet.  
There was something about you.  
Something about you.  
In the way you look my way.  
There was something about you.  
Something about you.  
In the way you turn away.  
Starting over, Sick and sober.  
Separated heart.  
Forever ending, too descending.  
Falling far apart.  
Into the valley of bones!  
In the valley of bones,

In the valley of bones,  
In the valley of bones,  
In the valley.  
In the valley of bones,

In the valley of bones,  
In the valley of bones,  
See where the scorpion goes, with a bitter sting.  
Came into my world, poisoned everything.  
My body burning alive. If you play the scene.

Just to talk out loud, In the edge of me.  
I'm better off without you, better without you.  
In the way you look my way.  
I'm better off without you, better without you.  
In the way you turn away.

Starting over, sick and sober.  
Separated heart.  
Forever ending  
Too descending  
Falling far apart  
Into the valley of bones!  
Face down, in the valley now.  
Broken, only you deserve.  
Locked down, There's no getting out.  
I know all that's said is done.  
In the valley of bones,

In the valley of bones,  
In the valley of bones,

In the valley.  
In the valley of bones,  
  
In the valley of bones,  
In the valley of bones,  
In the valley.  
Starting over, sick and sober.  
Separated heart.  
(in the valley) Forever ending  
Too descending  
Falling far apart  
Into the valley of bones!  
In the valley of bones,

In the valley of bones,  
In the valley of bones,  
In the valley.  
In the valley of bones,

In the valley of bones,  
In the valley of bones,
