

Fatalism

Fuming Mouth

Burning alive from inside
Now I'm nothing, now there's nothing I can do
Nothing to save me
Nothing to save you
Flames eat at your flesh
Smoke strangles your neck
Ceilings collapse into your body

Your bones break

Wasting away underground
Waiting for someone to hear me
Wasting away underground
Waiting for someone to see me
To see me

It wasn't enough, now I'm nothing
It wasn't enough, now I'm nothing
It wasn't enough, now I'm nothing
It wasn't enough, now I'm nothing
