

Leaving Euphoria

Fuming Mouth

Take me away from this horrible place
Far from all of this torture and all this pain

I'd like to be left alone, be left alone
Be left alone, be left alone
Be left alone, be left alone
Be left alone, be left alone

One less goodbye and one more strong hit of this
Close my eyes and forget everyone I'll miss

I'd like to be left alone, be left alone
Be left alone, be left alone
Be left alone, be left alone
Be left alone, be left alone

I don't want to be here anymore with any of you
I'd like to leave this place behind because there is no forever
There is only now and I'd like to forget you and say goodbye
To no one, to no one, to no one, to no one
