

Black Lemonade

Funeral Suits

In the night we turn on all the lights
I don't know (go!)

In the day it's either blue or gray
I don't know (go!)

Building so high
Feeding so slow
Inside out
I want to scream and shout
I don't know

Hey kids when you wake up
Things are gonna change
In the future, nuclear winter
We'll drink black lemonade

Now I'm older
I feel a little colder
The sparks are still in my heart
I'm feelin so wild
I crack a smile because I know that
There's a light even when it's dark
And yeah it's pretty dark

Oooooooooo
Oooooooooo

Your city
We'll burn your city
We'll burn your city
We'll burn your city

We'll burn this city
We'll burn this city
We'll burn your city
We'll burn your city

Building so high
Feeding so slow
Inside out I want to scream and shout
I don't know

Hey kids when you wake up
Things are gonna change
In the future, nuclear winter
We'll drink black lemonade

Now I'm older
I feel a little colder
The sparks are still in my heart
I'm feelin so wild
I crack a smile because I know that
There's a light even when it's dark
And yeah it's pretty dark

Go! Go! Go!
Oooooooooo

Ooooooooo

We see it in our hearts
We see it in our hearts

Hey kids when you wake up
Things are gonna change
In the future, nuclear winter
We'll drink black lemonade

Now I'm older
I feel a little colder
The sparks are still in my heart
I'm feelin so wild
I crack a smile because I know that
There's a light even when it's dark
And yeah it's pretty dark
Go! Go! Go!
