

Safe in some old autumn
It's here I can bleed out

So I paint the ground I run on
To see if it feels right

I climb out over the edge
To hide out in the sea
Dancing with the wolves
Has brought me to my knees
Crawl before the altar
It's not what we fought for
It's not what we fought for

I climb out over the edge
To hide out in the sea
Dancing with the wolves
Has brought me to my knees
It's not what we fought for
It's not what we fought for

Chariot to the sun
I'll be holding on
Chariot to the sun
I've been holding on

A song to sleep through winter
Now sit up and breathe out

Dawn becomes a shelter
Unravel and look down

It's not what we fought for
It's not what we fought for

Chariot to the sun
I'll be holding on
Chariot to the sun
I've been holding on
