

# Free Fields

## Funeral Suits

Our mothers and fathers, gave so many hours  
Doing the work and the chores  
Us sons and daughters, played Cowboys and Indians  
Hid behind bushes and walls  
In the garden, in the sunlight  
Feeling so safe and so warm

I keep running  
And keep running  
And keep running  
And keep running

There's people who's trying  
There's people who's fighting  
The ones who's controlling  
And run it like a hungry wolf

If you called my name  
Would I hear your voice?  
Could I ease your pain  
Or would I run it like a hungry wolf?

Looking over, we follow the leader  
I carry the shield and this sword  
To the free fields, with you there with me  
Won't go through this test on my own

I keep running  
And keep running  
And keep running  
I keep running

If you called my name  
Would I hear your voice?  
Could I ease your pain  
Or would I run it like a hungry wolf?  
If you called my name  
Would I hear your voice?  
Could I ease your pain  
Or would I run it like a hungry wolf?

Spending my whole life  
Looking for a sign  
When I closed my eyes  
For the first time I woke up

I keep running  
And keep running  
I keep running  
And keep running

If you called my name  
Would I hear your voice?  
Could I ease your pain  
Or would I run it like a hungry wolf?
