If God forgive then you can
I can't imagine you with a new man
What I go do, you go fine me a new flap
But you over there I could kiss you oh yeah
Oh na me I missed up the plan
You and I will need a thousand lands
I hope one day you can understand

See this new Africa
We treat our women like queens
So fellows we have to show them right now
That we held them to the top, to the fullest, to the highest
So right now when you heard me singing this song right now
So fellows I wanna hear the bass in the air
And the ladies gives us the raararaa

Every man make mistakes
But one day you will learn from your ways
Every man make mistakes
But one day you will learn from your ways
Every man make mistakes
But one day you will learn from your ways
Every man make mistakes
But one day you will learn from your ways
