

Bra Fie

Fuse ODG

Take the shackles off my feet
Make I go make I go
It's a battle with the beast
Take a shield here we go
Kwame Nkrumah take over
New Africa make over
Let's bow our heads and pray o Lord
Our father help us fight the war (huuuu)

Bra fie o bra fie (Come home come home)
Bra fie na y3tw3n wo (Come home we are waiting)

Bra fie o bra fie (Come home come home)
Bra fie na y3tw3n wo (Come home we are waiting)

I'm a human being in Africa
But a black man in America
African in England
Don't forget where you are from
Ghana down to Suriname
Taken from our motherland
Don't forget your mother tongue
Please don't shoot me we are one

Bra fie o bra fie (Come home come home)
Bra fie na y3tw3n wo (Come home we are waiting)

Bra fie o bra fie (Come home come home)
Bra fie na y3tw3n wo (Come home we are waiting)

Bra fie o bra fie (Come home come home)
Bra fie na y3tw3n wo (Come home we are waiting)

Bra fie o bra fie (Come home come home)
Bra fie na y3tw3n wo (Come home we are waiting)

Now have a look through history's binoculars
And please don't tell me you've forgotten us
Your last children living anonymous
In a very strange land where they carried us
And it must be a natural phenomenon
How we still can remember where we coming from
Even through the brainwashing curriculum
Up through the ages and millenniums
Last 400 years has been fabulous
We've been working as slaves living ravenous
But to overdo your stay can be hazardous
Now it's time to go home thanks for having us
Please make I a promise ol' promise land
And welcome me home anytime I land
And make I feel like I belong with us
Until that day no giving up

Aayy aayy
Huuuu
