

## Day Ones

Fuse ODG

And we drink and we smoke  
And we laugh and we joke  
I spend money with my day ones  
Back then we were broke  
And we were running down the pagans  
On the ends on some smoke  
And now we balling like the lakers  
Now we counting these notes

Make money, can't take this from me  
Make money, can't take this from me

I can never take for granted  
Things that look standard  
Chilling with my day ones even though I just landed  
It might just look random  
Mitcham with the mandem  
Order Caribbean rice and peas with the plantain  
They can never be abandoned  
Regardless where I'm heading  
Miami to LA fly to Ghana back to London  
I hope you overstanding  
We blessed in abundance  
We used to be outside in the streets we were slanging  
And now you know it be my songs they be banging  
And still we see the pagans in the streets we go bang dem  
And now we dey East Legon with the peacocks they be sanging  
I'm here with the mandem in the ODG mansion  
And I love the growth word to my locks we be hanging  
You know we stick together they're my bruddas we be ganging  
You know we chop together we're together we be planning  
We sitting just to take over the world, outstanding

And we drink and we smoke  
And we laugh and we joke  
I spend money with my day ones  
Back then we were broke  
And we were running down the pagans  
On the ends on some smoke  
And now we balling like the lakers  
Now we counting these notes

And we drink and we smoke  
And we laugh and we joke  
I spend money with my day ones  
Back then we were broke  
And we were running down the pagans  
On the ends on some smoke  
And now we balling like the lakers  
Now we counting these notes

Make money, can't take this from me  
Make money, can't take this from me

I remember at my mum's yard the bailiffs outside  
Banging on the door I think I was around 5  
I never understood the hardship about life

And now my fam good we chilling in the south side  
It's been a long time since I heard from my bredrin  
Them lock him up in jail it was only for possession  
Now them legalise it what a waste of life this now  
(He could've taken advise)

Yeah we had to pull our own moves  
For the things that we were lacking  
Had to put the youths together coz the government wasn't backing  
We lost our only bredrin to a playground stabbing  
He was only sixteen that's another young fallen  
Now it feels like it's our calling  
So we had to put our all in  
Me and Mr. Hackett on the big board drawing  
Had to visualise it just to realise it  
Now we record-breaking worldwide

And we drink and we smoke  
And we laugh and we joke  
I spend money with my day ones  
Back then we were broke  
And we were running down the pagans  
On the ends on some smoke  
And now we balling like the lakers  
Now we counting these notes

And we drink and we smoke  
And we laugh and we joke  
I spend money with my day ones  
Back then we were broke  
And we were running down the pagans  
On the ends on some smoke  
And now we balling like the lakers  
Now we counting these notes

Make money, can't take this from me  
Make money, can't take this from me
