

I think I'm in love  
Body like a fire  
Place is burning up  
Burning up, burning up  
Feelings loud enough, ay  
Hear me like a choir  
Way you back me up, back me up

It's such a pleasure  
Body falls like a treasure  
I keep coming back forever  
You and I, any weather  
Oh yes, it's my pleasure  
Body falls like a treasure  
I keep coming back forever  
You and I change the weather

When you dance on my island  
Ay, dance on my island  
Hey, I love it when you dance on my island  
Oh, on my island  
I love it when you dance on my island

Ever since you came into my life  
Everything doesn't mean nothing  
You and I have spectacular vibes  
Now it seems everything a hundred  
And now we're just driving and shouting out my way  
Our love keep me coming, go back and stay  
We used to rehab like it's a birthday  
One time your fault, two time my shame

Still it's such a pleasure  
Body falls like a treasure  
I keep coming back forever  
You and I, any weather  
Oh yes, it's my pleasure  
Body falls like a treasure  
I keep coming back forever  
You and I change the weather

When you dance on my island  
Ay, dance on my island  
Hey, I love it when you dance on my island  
Oh, on my island  
I love it when you dance on my island

And everything that you said, I believe that  
You got a body, baby, look like I need ya  
And all you need in your life, you will see that  
And all them days are gone  
'Cause so many times you made me cry  
You said 'goodbye, I had a lovely night'  
And now I'm flying, lighting up the sky  
You holler at me but I think I'm alright  
Oh, don't you like, you miss me in your life  
But when I think of rude days, I think I just might

It's been a pleasure  
Body falls like a treasure  
I keep coming back forever  
You and I, any weather  
Oh yes, it's my pleasure  
Body falls like a treasure  
I keep coming back forever  
You and I change the weather

When you dance on my island  
Ay, dance on my island  
Hey, I love it when you dance on my island  
Oh, on my island  
I love it when you dance on my island

I think I'm in love with your love, with your love  
I think I'm in love with your love, with your love  
I think I'm in love with your love, with your love  
I think I'm in love with your love, with your love  
I think I'm in love with your love, with your love  
I think I'm in love with your love, with your love  
I think I'm in love with your love, with your love  
I love it when you dance on my island
