

# Steel and Stones

Fuse ODG

Steel and stones can break bones  
Words could never break you  
Please don't let em change you  
Stay the same  
I know you feel pain sometimes  
Words could never break you  
Please don't let em change your smile

The devil had me thinking I ain't feeling you  
Looking in the mirror made me think I should be killing you  
So beautiful you by yourself  
Nobody visit you  
Open the magazine it's you dealing with big issues

If it's issue, there's nobody there right by your side  
Even the truck and when it's broken down, down to ride  
Though you are stuck in the mud he will stick with you  
And yeh we racing for the people that belittle you

And in the end it's only me and you  
If you don't feel like living I'll give you a reason to  
You know I love you in the spirit and the physical  
I wanna hold you reassure you, say I deh with you  
And you can tell me how you're feeling too  
Whatever you're going through  
I'll help you with your healing too  
If I don't like it I will tell you I'll be real with you  
As long as we deh the same page in this place I believe in you

Steel and stones can break bones  
Words could never break you  
Please don't let em change you  
Stay the same  
I know you feel pain sometimes  
Words could never break you  
Please don't let em change your smile

Them go deh them go deh them go arrest me  
'Cause I go ride the second for my besty  
And if it gets too heavy I'll be your Jet ski  
'Cause I will hold you for my hand now Rolex be

Yo get my time, you dey my mind  
If no be you then let my fingers come and stress me  
Don't dim the shine  
Mek I remind  
You've always been the one that's badder than the rest B

Them giving nothing more, but you give em nothing less  
Them close down the door but you kicked it down with chest  
You grew up in a storm but didn't let you get suppressed  
Put your trust in the Lord and everything else will be blessed  
I know sometimes it's hard and you really get frustrated  
You put up your guard 'cause you feel no one relates  
But I deh here by your side in this valley of a race  
But to me you're a winner so I go congratulate

Steel and stones can break bones  
Words could never break you  
Please don't let em change you  
Stay the same  
I know you feel pain sometimes  
Words could never break you  
Please don't let em change your smile
