

# Anomaly

Future Palace

I don't wanna  
I don't wanna talk anymore  
I don't wanna  
I don't wanna talk anymore

'Cause no word can express  
The feelings that I get  
While I'm in the moment  
Sometimes it's close to an explosion

I don't wanna  
I don't wanna talk anymore

Words so far from the experience  
Not close to catch the ambience

So let's  
Shout our mouth  
Let's be silent  
Let's no make a sound

Not talk  
Not think  
It's time for an awakening  
So let's no talk, do me the favor

I wanna take your hand and leave  
I wanna run with you  
Laugh  
Cry  
Scream

Take me out to see a marvel  
A great anomaly  
Take me out to see the world  
And sing our happy melodies

It's been too much sitting around  
And letting time pass by  
It's time to see a marvel  
Something new you won't believe

And I've been saying a thousand words 'til now  
But I rather wouldn't make a sound  
So many empty meanings shouted out  
So many shallow beings running around

'Cause the presence is the best narrator  
So let's no talk, do me the favor

I wanna take your hand and leave  
I wanna run with you  
Laugh  
Cry  
Scream

Take me out to see a marvel

A great anomaly  
Take me out to see the world  
And sing our happy melodies

It's been too much sitting around  
And letting time pass by  
It's time to see a marvel  
Something new you won't believe

You won't believe  
You won't believe

I don't wanna  
I don't wanna talk anymore  
What a relief to sit in silence now

I don't wanna  
I don't wanna talk anymore  
It's so peaceful without any vowel

(Take me out to see a marvel  
A great anomaly  
Take me out to see the world  
And sing our happy melodies)

Take me out to see a marvel  
A great anomaly  
Take me out to see the world  
And sing our happy melodies

It's been too much sitting around  
And letting time pass by  
It's time to see a marvel  
Something new you won't believe
