

# Break Free

Future Palace

A feeling like this  
Was something I've missed  
For a long time  
I feel fear, belonging and sorrow  
I feel like I need you here by me  
I'm better off alone  
In this cage build by fear  
No matter how I've grown  
Nor what age, 'cause today  
I'm still too afraid

And I will break my chains  
I'll show you the way that I've changed  
Ignite me inside (Ignite me inside)  
And I've been out of shape  
Mislearned to navigate  
It's time to fly

And never hit the ground  
I never hit the ground  
I never hit the ground  
I can break free on my own

So pull yourself together  
I won't be imprisoned any longer  
I'm ashamed for myself  
For my love and my hate  
And never good enough  
I kept fighting but lost in my own war  
I'm still too afraid

And I will break my chains  
I'll show you the way that I've changed  
Ignite me inside (Ignite me inside)  
And I've been out of shape  
Mislearned to navigate  
It's time to fly  
I never hit the ground

I jump but never hit the ground  
I fall but never hit the ground  
I will, I will, I break my  
I show you the way I've changed, I  
Break free on my own

And I will break my chains  
I'll show you the way that I've changed  
Ignite me inside
