

## Dead Inside

Future Palace

I revisit an old phase of mine  
This feels too familiar oh I can't  
Oh I can't  
Play on repeat again  
I act just like a record that got stuck  
Oh this phase sucked so much

It's scary how quickly we  
Can switch to who we used be

Delete me out of your memory  
Erase all of what wasn't meant to be

Back in this wrestling ring  
Fighting for something I can't get  
Tell me what am I fighting for  
I punch myself right in the throat  
And scream what are you doing to us  
This pain makes me realize  
There's no one who wins this game

Delete me out of your memory  
Erase all of what wasn't meant to be  
I've tried, I've tried so many times to think straight  
I can't deny I wish we took another way  
Delete me out of your memory  
Your memory, your memory

Delete me out of your memory  
Erase all of what wasn't meant to be  
Delete me out of your memory  
Erase all of what wasn't meant to be

Delete me out of your memory  
Erase all of what wasn't meant to be  
I've tried, I've tried so many times to think straight  
I can't deny I wish we took another way  
Delete me out of your memory  
Your memory
