Decarabia

How can you save a life
When there's no hope that you can see?
How can I set things right
With no excitement and no dreams?

How can I help your life
When my pain is just as deep?
I barely feel alive
But there's a promise I need to keep

We're really out of light
But you are everything I need

We are dancing to the voice of Decarabia
I'm so in trance, your love gets me so high
We are dancing to the voice of Decarabia
You're just like a drug, I never wanna be sober

Will this demon still get us if we endeavor?
Are there coming days when we'll be better?
Covered in stones and fallen feathers
He dug a grave for both of us together
A silent place where we will stay forever

We are dancing to the voice of Decarabia
I'm so in trance, your love gets me so high
We are dancing to the voice of Decarabia
You're just like a drug, I never wanna be sober

Will this demon still get us if we endeavor?
Are there coming days when we'll be better?
How long till we're free from all this pressure?
Covered in stones and fallen feathers
He dug a grave for both of us together
A silent place where we will stay forever

We are dancing to the voice of Decarabia
I'm so in trance, your love gets me so high
We are dancing to the voice of Decarabia
