

Ghost Chapter

Future Palace

How did we start like this?
When did it turn into this emptiness?
And I am judging myself
For not getting enough attention

There are no pages left
And the story is untold
How the end will turn out
Is something we will never (ever)
There are no pages left
And the story is untold
How the end will turn out
Is something we will never (ever)
Know
We will never ever know
Know
We will never ever know

Are we losin' touch again?
Did you get bored, did you just pretend?
Can you stop confusin' me?
Why don't you ever dare to explain?

There are no pages left
And the story is untold
How the end will turn out
Is something we will never (ever)
There are no pages left
And the story is untold
How the end will turn out
Is something we will never (ever)
Know
We will never ever know
We will never know
We will never ever know

Why can you not just explain?
You left me in this dark, dark place
Oh why can you not just explain?
What led you to suddenly disappear?
Why can you not just explain?
You left me in this dark, dark place
Why can you not just explain?
That we will never know

There are no pages left
And the story is untold
How the end will turn out
Is something we will never (ever)
There are no pages left
And the story is untold
How the end will turn out
Is something we will never (ever)
Know
We will never ever know
Know
We will never ever know
