

Get out my way, get out my head  
'Cause you and I were far off from fairytale land  
Leave me alone, I lock the door  
And please don't follow, get out my way, get out my head

Because seeing my body completely bruised  
Makes me hate myself

We just turned each other crazy  
Our mindset hazy  
You keep asking me, how I'm doing lately  
Can you please stay far from me  
We just turned each other crazy  
Our mindset hazy  
You keep asking me, how I'm doing lately  
And please don't follow me

It felt so wrong in many ways  
'Cause you and I would always test each others strength  
Leave me alone, I'm not that strong  
And please don't follow, it felt so wrong in many ways

Because seeing my body completely bruised  
Makes me hate myself

We just turned each other crazy  
Our mindset hazy  
You keep asking me, how I'm doing lately  
Can you please stay far from me  
We just turned each other crazy  
Our mindset hazy  
You keep asking me, how I'm doing lately  
And please don't follow me

'Cause you freak me out  
Just shut your mouth  
You've screamed your lungs out  
In this house when you weren't allowed  
'Til I forgot who I was  
I was totally lost  
I got sucked out of trust  
And I still don't get why just

Seeing my body completely brusied  
Makes me hate myself the most  
Get out my way, get out my head  
'Cause you and I were far off from fairytale land

We just turned each other crazy  
Our mindset hazy  
You keep asking me, how I'm doing lately (Doing lately, doing lately)  
Please stay far from me  
We just turned each other crazy  
Our mindset hazy  
You keep asking me, how I'm doing lately  
And please don't follow me

And please don't follow me  
And please don't follow me  
And please don't follow me
