

# Malphas

Future Palace

Hands are wrapping around my neck - again  
A really tight grip I can't fight back - I can't  
They block my air I can hardly breathe - in  
I am begging but they won't release - me

Give me time - to go uphill  
But right now - I'm on a treadmill  
Every move - is a setback  
All I try - is a misstep

Oh my god I have wasted  
Too much time with this hatred  
I'm really losing my patience  
I'm possessed by a Malphas

I get pushed down to stay close to hell - and burn  
I feel so crushed this is my farewell  
When I stand up the ground turns to dust  
There's no support, I've given up

Oh my god I have wasted  
Too much time with this hatred  
I'm really losing my patience  
It's been ruling me for ages  
Tell me who I could have been  
Without this chaos in my brain  
I'm really losing my patience  
I'm possessed by a Malphas  
You're possessed by a Malphas  
You're possessed by a Malphas

Decay  
Brick by brick  
It takes all hope from me, me, me  
Give me time - to go uphill  
But right now - I'm on a treadmill  
All I try - leaves me hopeless

Oh my god I have wasted  
Too much time with this hatred  
I'm really losing my patience  
It's been ruling me for ages  
Tell me who I could have been  
Without this chaos in my brain  
I'm really losing my patience  
I'm possessed by a Malphas  
I'm possessed by a Malphas  
I'm possessed by a Malphas  
Malphas  
I'm possessed by a Malphas
