

My Air

Future Palace

Here is something to think about
Something that I never speak out loud
I breathe it in, I breathe it out
It lifts me up, it let's me down

Let me come closer and breathe you in
You are my pleasure, and I'm your sin
Let's be together, let no one know
I am your water, you are my

Air
When I'm your water
You are my
Air
When I'm your water
You are my

The silence, it haunts me wherever I go
It feels like I'm freezing and I cannot show
The fire that burns me, the fire in you
The fire that started
The ending of the truth

Let me come closer and breathe you in
You are my pleasure, and I'm your sin
Let's be together, let no one know
I am your water, you are my

Air
When I'm your water
You are my
Air
When I'm your water
You are my

When I'm your water
You are not there
When I'm your water
You are not there

I am your water, you are my

Air
When I'm your water
You are my
Air
When I'm your water
You are my
