

## Something New

Future Palace

It seems like I'm ready for what I adore  
More far than close, but there's something rising  
To help me go, it's so easy  
Stop listening to people saying  
Your dream is too hard to reach  
Ignore your needs  
Rather choose a way that keeps you safe please  
I say tell me something new  
Tell me something new

It's time that you take this chance  
And that you learn how to see your strength  
You'll be fine if you try something new instead  
Something new, out of the blue  
You're good, good, good enough  
Now baby, don't give up  
It's time that you believe  
Out of the blue  
To believe

This is my wake up call  
It keeps me up at night  
But I won't complain  
'Cause it makes me feel alright  
I vision all those scenes  
The future sends to me  
I know you can't believe  
What this life can be  
I will tell you something new

It's time that you take this chance  
And that you learn how to see your strength  
You'll be fine if you try something new instead  
Something new, out of the blue  
You're good, good, good enough  
Now baby, don't give up  
It's time that you believe  
Out of the blue  
To believe

And yes, I will prove you wrong  
That all your distrust  
Finally has to go  
And I will tell you

It's time that you take this chance  
And that you learn how to see your strength  
You'll be fine if you try something new instead  
Something new, out of the blue  
You're good, good, good enough  
Now baby, don't give up  
It's time that you believe  
It's time that you take this chance  
And that you learn how to see your strength  
You'll be fine if you try something new instead  
Something new, out of the blue  
You're good, good, good enough

Now baby, don't give up  
It's time that you believe  
Out of the blue
