

## Appeal

Future

I got niggas down the road, waiting on an appeal  
Living life through a pen, I hope they get their appeal  
I hope they get their appeal

I just opened up the mailbox, four letters from my niggas  
Who fucked up in the system, who got their head up with no a ma  
x date  
Just to add them niggas to the state, don't give a fuck who lif  
e they take away  
You get your time and they just walk away  
Now you riding down that dirt lane  
Shackled in chains, bout some petty change  
That what folks say  
Cuz you thinking bout your kids and they ain't got a thing

John Gooti did that time a street nigga told on him  
That's why he doing that time a street nigga told on him  
Got Fisher doing his time a street nigga told on him  
Big Meechie doing that time a street nigga told on him  
In the street s you don't wanna get caught up with dope boy pro  
duct  
You gon need an appeal, only snitches get deals
