

## The Intro

Future

Um, he came on the scene, he's already impacted the scene in a way where a lot of other artists are trying to do exactly what he does and trying to sound just like him. Ladies and gentlemen, give it up for Future!

Um, that drunken love song, was that your song that Beyoncé and Jay-Z did?

Cause I'm honest, I didn't, when you, they put you on the MTV - uh, what was it-, the top 10 best rappers, I don't know what the number was, I was like 'why is Future on that list?'

Is that, is that, I might've mistaken, I might've read it wrong .  
I might've seen a one before the five. Is that a fifteen-carat diamond ring?
