## Future

I danced with the devil so long, she pulling me closer  
Been sleeping with demons and how they get there? She invited them over  
And he came in girl form, so pretty, I fell for it, it felt like I known her  
I pray to the angels but the devil is stronger  
Wonderin' why I'm in hell, still?  
Nobody's nice, nobody cares here  
I tried to break free, she wouldn't let me  
She said, don't waste my time, thinking I'm going to heaven  
'Cause all my blessings she telling me, she the one who sent them  
808 Mafia  
Ay, Southside, where you get all that drip?

Way out of they range, got to feel my rage, drug traffickin' made me  
Ambition saved me, hold up on the pavement  
Ain't going out sad like Jose Canseco, I up my status  
Had to 'crease me hunger, get me pesos, I was right with the Yayo  
Droppin' off a hundred elbows with a fine bitch in stilettos  
Got stars in it, it's a shuttle  
Gettin' nauseous, all the decimals  
She give me sloppy on another level  
Doing crossfit, I'm getting healthy  
Bitch moshpittin' at the W  
You live marvelous, you get a W  
Keep a short stick and a duffle  
Tryna flex, I show muscles  
Hi-definition, totin' cutters  
I was presidential, more bullets  
Feel played 'bout it, get to trippin'  
I'm with the Cartel every time I re-up  
On the plane by the runway, that's how they greet us  
Getting it grande from Sunday to Sunday  
I knew I'd be the plug one day  
This money like a drug  
Dope so pure can't touch it without the gloves  
Money machine clickin' give me a rush

I danced with the devil so long, she pulling me closer  
Been sleeping with demons and how they get there? She invited them over  
And he came in girl form, so pretty, I fell for it, it felt like I known her  
I pray to the angels but the devil is stronger  
Wonderin' why I'm in hell, still?  
Nobody's nice, nobody cares here  
I tried to break free, she wouldn't let me  
She said, don't waste my time, thinking I'm going to heaven  
'Cause all my blessings she telling me, she the one who sent them

Angel on my left, devil on my right  
It's hard for me to go, I've been fighting for my life  
Been put through a test, tryna do what's right  
It's gettin' harder and harder for me to find some peace at night

I danced with the devil so long, she pulling me closer  
Been sleeping with demons and how they get there? She invited them over  
And he came in girl form, so pretty, I fell for it, it felt like I known her  
I pray to the angels but the devil is stronger  
Wonderin' why I'm in hell, still?  
Nobody's nice, nobody cares here

I tried to break free, she wouldn't let me
