

All Damn Night

Futurebirds

Hey baby don't you want me to play some Stevie
Watch you dance over my feet
Maybe you'll haunt her but there's a dancer somewhere deep within me
Just give me a second to find the beat

You know, I know just what you've been waiting for
Something pure and physical

Well I
Will dance just like you wanted too
About on your couch
Move it to the floor
We got all damn night
Tomorrow too
We'll be in every room
Till our knees get sore
Oh I swear you move like light
Just taking our time
We got all damn night

Hey you wanna go down to VA with me
Got a three-pen build of mine
Well I'll get stoned and chase after a feelin'
Wait for the mood to hit you right

You know, I know just what you've been waiting for
Something pure and spiritual

Well alright
I'll dance just like you wanted too
About on your couch
Move it to the floor
We got all damn night
Tomorrow too
We'll be in every room
Till our knees get sore
We'll dance just like you wanted to
Come one take your time
Are you paranoid
Oh I swear you move like light
Just taking our time
We got all damn night
Just taking our time
We got all damn night
We got all damn night
We got all damn night
