

Hard as You Like

Futurebirds

Well the line is good and ready
Tow as hard as you'd like
Because you ain't holding nothing
That you're chasing all night
You came in a horror to claim
Things that I won't ever pay

All the verses and doctrines
That you knew you prevail
All gunned down in daylight
In a three-lined e-mail
You put lives in the ground to build your wall
But put a tune in a horn and it will fall

Do all the voices get roaring
And snatch up your mind
Do you ever get tired
Of being alive?
Are you ever so wasted
That you fear for your life
Are you ever so scattered
You feel just like dying
Don't you ever get tired
Of being alive
Because that line's good and ready
Tow as hard as you like
