

Baby, come on
Been through this before
You're digging up old bones
And running circles
I'm not ashamed to say
You've got me wound up
Lasso my heart and give me rope burn

Cause we've turned our love into a rodeo
But I'll be damned
If I ain't gonna grab the bull by the horns
And it may put me in an early grave
But I won't have it no other way

And goddamn, how I miss my friends
Chasing empty dreams and left me helpless
Cause no one knows me like you anymore
As long forgotten as a debt I owe

Cause we've turned our love into a rodeo
But I'll be damned
If I ain't gonna grab the bull by the horns
So let me down baby to an early grave
I wouldn't have it no other way
Cause I wouldn't have it no other way
I wouldn't have it no other way
Cause I wouldn't have it no other way
