

The Doewg

Futurebirds

I'm just a doewg you can't leave me alone
For what seems like 3 days alone in a cage
Cause when you're a doewg, your supposed to go home
And you left the ac on 78 degrees

And I tried and I tried to love
But I was here and you were gone
On the road again fallin for [?]

I found a place I can roam free
So alot to say, this doewg and me
But you came back, to a couch full of fleas
And an empty house, no one but me

And I tried and I tried to love
But I was here and you were gone
On the road again fallin for [?]
