Trippin'

Futurebirds

Well we don't get bored no we'd rather get in trouble with the
whole world under our feet
And we long lost count of nights we spent together smoking weed
 and solving mysteries
Keeping heaven close within our reach and making history

I would have hell to pay baby if I didn't have you
Its taken its time to show itself now but its always been true
I took a long time trippin' all over myself

We were never too afraid to say we don't know shit we chose to
have fun with it
We'd be laughing like the devil on a rainy summer Sunday with t
he decent people shaking their heads
We didn't wanna change the world we could barely change the she
ets of our beds

I would have hell to pay baby if I didn't have you
Its taken its time to show itself now but its always been true
I took a long time trippin' all over myself
Have to ride it out 'till I've got nothing else

I would have hell to pay baby if I didn't have you
Its taken its time to show itself now but its always been true
I took a long time trippin' all over myself
Have to ride it out 'till I've got nothing else
