Wandering Minds

Futurebirds

Would you still love me if you knew I drank all night?
Spent my days alone and high
Would you think I was a bad guy?

Wandering minds come and go
Taken with you when you go
Will you still love me when you know?
Will you still love me when you know?

Would you still love me when you know where my eyes have gone?
Do you get tired of hearing my songs?
Would you think I done something wrong?

Wandering hearts roll along
Placing meaning where it don't belong
Will you still love me when I'm gone?
Will you still love me when I'm gone?
Will you still love me when I'm gone?
Will you still love me when I'm gone?

Wandering hearts get no relief
They shudder with you when you're asleep
If you're sweating in the sheets
