She from 1996
Little shorty got the drip
Like a plumber when I pipe her
I just gotta get my fix
And you know that
She be on my phone yeah
Know she wanna ride
Got the time
If she wanna spend the night
She from 1996
Little shorty got the drip
Like a plumber when I pipe her
I just gotta get my fix
And you know that
She be on my phone yeah
Know she wanna ride
Got the time

My girl grown from '93
I was skeptical at first, but she grew on me
In the kitchen cooking bacon while I write this verse
On an island in the tropics in between them trees
Yo
That booty so big and it wiggle
Hold it all in place then I let that thing jiggle
Thick thighs, know that imma slide in the middle
Perfect teammate, but she like to double dribble
Uh
Yeah
And she like to build so we done built it up
I like to sip, know I don't miss
I gotta fill the cup up
Then we gon' dip, we on a trip
It be each and every month
Homie spit game
She tell you you lame
And she will not chill with ya
Nah
That's wifey really
I know it be silly the way I break this down
But imma king, needa queen so that crown be bestowed on the dome
And you know she gon' rock that gown
Put a ring on her finger right next to the pinky and now we shinin' through
the city
When we ride through town
Plant a seed, watch it grow then my whole life changed
If that's what you wanna do baby, how's that sound?
