

All Love

Futuristic

Yeah, I just wanna ride with my niggers
In Arizona top down in the winter
And anybody talking down I forgive 'em
A peace sign then its bye I forget 'em
And I've been looking at everybody around me
With a smile, for a while, see my style
Then they biting harder than a crocodile
But I'm flattered
Yo, let's make it happen
All the madness is happiness in my humble opinion
I plan on finishing this race with everyone I begin with
And letting everybody eat, that just what come with the friendship
And Imma always keep it real, I ain't with all this pretending
And if all these haters want to hate, than that's all good
Ya'll jealous maybe ya'll should do something productive, maybe ya'll could
Be in the same position make a living I worked hard and it worked out splend
id nigga, I knew that it all would

And if you need someone to hate on, than feel free to hate on me (hate on me
)

And if you need someone to wait on, well that ain't in my genes
I told pops that Imma get this guap, and I told mama Imma make this run
If you don't agree, that's okay with me
Cause I ain't got no beef running through my blood
So I say
L is for the way, they used to laugh at me (used to laugh at me)
O that means oh, now they wanna be on my team (wanna be on my team)
V is very very as in ordinary indeed (indeed)
E is even more, three sins in need to succeed
And it's all off

Yeah, how you doing? Doing swell
Then I'm gone. Wish me well
How you doing? A-okay
Everyday. Feeling great
How you doing? Living good
The only thing I wish, I wish somebody would
How you doing? Doing fine
And my girl is fine, and she's only mine
Yo, it's all love
Meet a stranger with a smile, homie it's allhugs
Got a bottle and a joint, but Imma skip hard drugs
The team of misfit kids, rocking it's all trust
I don't carry round a gavel, who am I to be the judge
Vocabulary is [?] with the rise up in the plug
So if they're getting outta pocket, Imma treat 'em like a socket
Imma catch a charge and then I leave them laying on the rug

And if you need someone to hate on, than feel free to hate on me (hate on me
)

And if you need someone to wait on, well that ain't in my genes
I told pops that Imma get this guap, and I told mama Imma make this run
If you don't agree, that's okay with me
Cause I ain't got no beef running through my blood
So I say

V is very very as in ordinary indeed (indeed)
E is even more, three sins in need to succeed
And it's all off
And it's all off
And it's all off
And it's all off
(And it's all off)
