

Already Won

Futuristic

Already won, he handled business it's already done, it's already
Already won, he handled business it's already done, it's already
Already won, he handled business it's already done, it's already done
We already won, he handled business it's already done, it's already done

Ransom, been bought the blood
My life is not what it was
From slave to now called his son or daughter
I got a heavenly father
Waiting in heaven for me
Earth is my Alma mater
When I'm finally free
I'm on my knees
Crowned by the king

Already won, he handled business it's already done
It was what it was
A hundred and one
It's nice to meet you, first name prodigal, last name son
Doing my David dance, go left and right, and left and right for fun
Feel em expanding, feeling my breathe, praise is filling up both of my lungs
Running this planet
Got the advantage
Further the kingdom
Try to expand it
Cornerstone
Hits harder than granite
Paid the loan
Don't gotta go bandit
Drawing me close
Feeling like a magnet
Drawing me close
Feeling like a canvas
Paint his story
Through my life
My testimony
Feeling like Samson
How I'm moving these stones
David
How I'm throwing these stones
Thanos
How I'm using these stones
Jesus
How I'm rolling these stones
Watch me do a lap, all I see are dubs up in the chat
Watch me do a lap, all I see are dubs up in the chat

How could I fear the one that I know?
Don't walk with a fien, I walk with the ghost
My enemies, are quiet at once
Cuz that old tree is covered in blood
We already won
Already won
We already won
Already won
It's already done
Already done

It's already done
Already done
We already
Won, won, won
It's already
Done, done, done
We all ready
How could I fear the one that I know
Don't walk with a fien, I walk with the ghost
My enemies, are quiet at once
Cuz that old tree is covered in blood

Look
I already won
I don't do favors it's already done
God got it
Trust me with all of my blessings
So why would I stress 'bout whom Imma become
Sacrificing like he did with his son for real
I remember I was numb for real
I remember I would question the message
I never thought that heaven come for real
OK, how can he give you miraculous if you ain't happy with all the mundane
How can he give you the peace if you broken but hold onto diamonds and chain
s
How can he break all your curses, you ain't even working and cursing his nam
e
I had to stop all of that real fast and now I been running the game
EA, punching my ticket to heaven, no GA spin
Plea, Jesus my liaison, and I deliver the word for the teacher like TA
Imma PA, put it on replay, traded my sin out of phoenix like DA
Church service perfect and no I don't mean YE
Running the track for my God like a relay, OK

How could I fear the one that I know?
Don't walk with a fine, I walk with the ghost
My enemies, are quiet at once
Cuz that old tree is covered in blood
We already won
Already won
We already won
Already won
It's already done
Already done
It's already done
Already done
We already
Won, won, won
It's already
Done, done, done
We all ready
How could I fear the one that I know
Don't walk with a fien, I walk with the ghost
My enemies, are quiet at once
Cuz that old tree is covered in blood

He finished it, we already won, we already won
He finished it, we already won, we already won
He finished it, it's already done, it's already done
He finished it, it's already done, we already won
