

# Better

Futuristic

Yesterday I got deal offer, I turned it down  
That shit was hard, but look how all my songs is turning out  
Money isn't everything I guess  
Plus I got fans that won't settle for less than what I've been putting out  
Struggles with my brothers  
I love them but I can't trust them  
My fans is growing accustomed to seeing me doing something  
The girl that I was in love with is suddenly become nothing  
She drinking until she throw up  
She crying cause who I'm fucking  
Damn, I lost my way  
I'm feeling off today  
Told Aktion to make a beat  
Let my heartbeat be the bass  
Put my soul up on the verse  
That's what I do anyways  
Grinding like a veteran way back in his beginning days  
And it's a shame I ain't what you and your friends think  
I ain't balling, I'm struggling making ends meet  
I'm in it deep, I got my head under the water  
I just thank you for your time, I'm so glad you could be a part of me

When times get hard they can only get better  
When things go wrong we'll get through it together  
Music make it better  
We can make it better  
I just wanna make it better

My cousin sick of making sandwiches and I don't blame him  
I used to work there too before I got famous  
I ain't famous but we joke about it  
Private jets, sold out shows, I swear that I'm so about it  
My song on the radio  
Why you tryna play me though  
Like I ain't one of the dopest rappers to ever lay it bro  
Yeah I know I'm cocky in all my raps but I'm a humble dude  
I say I'm the best a lot but only cause that be the truth  
I'm off the subject more than on it  
My girl is so self-conscious after dinner man she vomit  
I tell her that she beautiful she think I'm running games  
I tell her that I'm different but she still think I'm the same  
As I used to be  
And truthfully I probably am  
Is she the one? Is she not? I don't understand  
But that's okay 'cause really I'm about my fans more  
Put them on my back like Jansport

When times get hard they can only get better  
When things go wrong we'll get through it together  
Music make it better  
We can make it better  
I just wanna make it better

Music is really the only thing that makes me happy  
So when I'm stagnant I tend to get so depressed  
Nobody knows I'm sitting her all alone writing these flows  
Just hoping to be known as the best

Then come in 'cause I ignore him manager said it's important  
These profits is coming in but I feel like I'm getting shorted  
I give you the bigger portion in hopes you stay by my side  
Hope that you know I'm real, here to the day I die  
I had the best of times with ya'll, but the worst too  
I do me and that hurts you  
Settle for something just because I hate to see you sad  
But that turns right back around 'cause all you do is make me mad  
Push you away when your the only one that cared  
I'd give you the world if I had it, I swear  
Times is hard but man they only can get better  
Let's get through this thing together  
And make this music forever

When times get hard they can only get better  
When things go wrong we'll get through it together  
Music make it better  
We can make it better  
I just wanna make it better
