

# Bring It Back

Futuristic

I make 'em pause the lines  
I'm real cordialent 'til you cross the line  
My money come with blue faces like it's been rapping off of time  
Often get signs that this was meant to be, a boss with mine  
I been tan and the fam, they true colors been showing off my shine  
I gotta bounce, I gotta bounce  
My girl wanna play-fight like Nala  
I let her pounce  
I'm on a trip, aye  
Somewhere you can't pronounce  
Niggas' saying I fell off, please, go check the account  
I don't like stunting but fuck it, let's do it real quick  
I got two little cribs, couple million I spent  
Got two others in Cali, I'm moving in quick  
And my girl got a booty that's stupidly thick  
I got clothes up in Zumies and shit  
And two pools, man my parties be movie legit  
Hit the row, make a hunnid, double or nothing  
Then diamonds be jumping like dudes in a gym  
J.R. Smith how aye y'all spit  
If you standing then you lucky because they all hit  
I'm on my job, they get laid off quick  
It's crazy that I talk slick and now your pay off it, bitch

Bring it back, bring it back  
Bring it back, bring it back  
Bring it back, bring it back  
Bring it back, bring it back

Bring it back, bring it back, bring it back  
Body like a bottle mixed with a Cadillac  
Like a Nordstrom employee I be getting to the Racks  
\$100K inside the bank account, these are just facts  
But it's only for the fans, otherwise I wouldn't have a post  
Independent as they come, boy I'm Indie like the coast  
Tunnel-vision with my vision, got you right up in my scope  
Need a million in advance if you wanna enter scope  
My mind a little hazy lately, I been going crazy  
Used to ride the bus, now I got the keys to that Mercedes  
They keep throwing shade, but the more they throw, they pay me  
Want them all to see who whipping this, so I don't do more than 80  
You can find me with my lady, that's my backbone  
Boy I tell it how it is, I'm an asshole  
I got the sauce, got the sauce, like Tabasco  
This is not a race, but if it was, you last though  
Last hoe

Bring it back, bring it back  
Bring it back, bring it back, bring it back  
Bring it back, bring it back  
Bring it back, bring it back, bring it back
