

## Day by Day

Futuristic

Day by day, tryna do the best I can  
Day by day, day by day, day by day  
I get on my knees and pray  
Day by day, day by day

Yeah, yo, okay, I messed up but I wanna make it better  
Everybody makes mistakes, we gotta get through this together  
Got my head on straight, focused on my endeavors  
With my grandma spirit on my mind, never settle  
Whatever's clever I'm tryna get it, I turned the volume down  
But my mom came in to the room  
For the rhymes that I have written  
I'm sorry to the kids parents that I have offended  
They see the letters but not the message that I be giving  
It's all forgiven, eventually making history  
Just bailed my bro out from state penitentiary  
I tell them that it's alright  
And even though we got our differences  
I love you and I'm here for you at all times  
And everybody can't make it in this business  
It takes dedication and commitment  
Lost a lot of friendships, but gained a lot of fans  
One step at the time, I'm a do the best I can, understand

Yeah, I know I disappointed my mama  
When I dropped out of college  
But she should have seen it coming though  
Cause I've been writing this music  
And performing it since the first grade  
But that's never what she wanted though  
Until she saw my dreams come to life  
She speak what I write, my biggest supporter and I thank her for it  
And we've been through some hard times, long fights  
When we hated each other but this love, I'm so grateful for it  
Hope it never changes, I get older, I see what you did  
And take a real woman to leave with the kids  
Had to start from scratch, make something of yourself  
Never let that devorce, ever hold your back, so I got your back  
I know dad was out hoing around  
Little bro ain't have a father, I was holding it down  
I hope that when you hear this verse you'll smile  
Because day by day, I'm trynna make you proud  
Tryna make you proud
