

# DOIN ME

Futuristic

I'm just doin' me

Look, I'm 'bout my business, I'm just mindin' what I make  
Perfect timin' on my time, it's all aligned within my faith  
I've been grindin' to be great, put my mind up on the page  
Never signed, or took a dime, and never lied up on no tape  
Look, I won't change up for no change up in my bank  
I run plays in different phases, I'm EA up in the game  
[?], it's mixed with Clay, it's mixed with Wayne, it's mixed with blink  
I don't throw shade behind the curtain, I don't speak before I think

You can judge me, that's okay  
I'ma do this my own way  
It take a lifetime to be free  
You do you, and I do me  
I'm just doin' me

I say what no one wanna say (Wanna say)  
Louder than rumors and the hate (And the hate)  
Speak right now, or you best hold that tongue forever and a day  
I walk through the fire, I don't flinch, I don't fold  
Never switchin' up, I gotta stick to the code  
First rapper in my city, turn to rock  
Hear my children, listen up, and pay attention when I talk

You can judge me, that's okay  
I'ma do this my own way  
It take a lifetime to be free  
You do you, and I do me  
I'm just doin' me

On and on, they talkin', no time to hear their claims  
I don't do the gossip, I'm on to the next thing  
If you know, then you know, but you don't, though  
We grow through the lows, where they won't go  
If you know, then you know, but you won't, though  
I don't need your opinion, I'm on my way

You can judge me, that's okay  
I'ma do this my own way  
It take a lifetime to be free  
You do you, and I do me  
I'm just doin' me  
I'm just doin' me
